

Resthaven

faithfully caring.

Opportunities for Support

For nearly 8 decades **Resthaven** has been dedicated to enhancing the lives of seniors, providing exceptional services and opportunities to the residents who consider **Resthaven** home. As we continue to do just that, your support helps us provide benevolent care, innovative life enrichment, spiritual care, and team member development and appreciation efforts.

Benevolent Care

As the only not-for-profit senior living organization in the Holland community, Resthaven provides more than 2 million dollars of Benevolent Care and forgives another 3 million dollars of reimbursement shortfall annually. Supporting Resthaven's benevolent care program ensures that aging adults in our community receive compassionate and skilled care regardless of their financial circumstances. Your support of Resthaven's benevolent care program directly aids in providing essential services, a nurturing environment, and specialized care for those in need, fostering an environment where every individual will age with grace and dignity.

Life Enrichment

Supporting Resthaven's Life Enrichment program empowers seniors to live fulfilling, vibrant lives. Support of this program directly enables a range of engaging activities, innovative therapies and exciting social opportunities. By supporting this program, you're fostering an environment where aging adults thrive and create meaningful experiences that bring joy and purpose to their daily lives.

Spiritual Care

Resthaven prioritizes caring for the whole person; this includes physical, cognitive, emotional *and* spiritual needs. Over the last several years, we have witnessed our residents becoming more distant from their home church, receiving fewer visits from elders and pastors. In 2021, Resthaven expanded the chaplaincy program to include two full time chaplains. Spiritual care is not a service that is covered by insurance reimbursements, so we rely on the support of our community members to continue to care for the spiritual needs of our residents, a mission-driven program that is incredibly important.

Staff Development and Appreciation

Supporting the development, training, and appreciation efforts for Resthaven team members is crucial to ensure exceptional care for the aging adults we serve. Your support directly contributes to ongoing education, skill enhancement, and recognition programs for these dedicated caregivers, empowering them to deliver compassionate and top-quality care. These efforts are crucial as we navigate a national workforce challenge in the senior living industry. By investing in their training and well-being, you're not only valuing their crucial role but also ensuring that our seniors receive the highest standard of support, and attention they deserve.
